MORAL LESSON IN GREAT PROBLEM PICTURE

The girl was born to crime. Her father was in prison, serving a long term sentence; her mother died when the husband and father was caught red-handed stealing to obtain money for medicine, that the mother might live a few days more. Left to the tender mercies of fate and a boon companion of the criminal father, the girl was given a post-graduate course in pocket-picking.

She was arrested and brought into the police station just at the moment that George Devereaux, the District Attorney, had called to claim the first criminal he could lay his hands on as a subject for an experiment in criminology.

Devereaux claimed that he could, by proper education and the benefit of improved surroundings, save from a life of crime any child that had been born and bred in a criminal atmosphere. And so the girl's future was directed into pleasant places, the child to be schooled for her final betterment and well-being.

This is the digest of the story constituting the basis of "The Great Problem," to be the attraction at the Amus-U Theatre next Saturday night, with Violet Mersereau playing the stellar role. Lionel Adams is her leading man, and they present a gripping story in fast moving scenes of exceptional interest.

Just how the "experiment" works out might better be left for the observer to witness first hand, for it is sure to detract from the interest of a film story if given complete. However, there can be no great harm done in declaring here that the author finds a happy ending and in spite of the sordid and crime-soaked start, the play soon works into pleasant scenes, leaving a happy impression at the close.

Booster Babble

W. W. Spencer, one of the most enthusiastic boosters, was the oldest man on the trip, being 81 his latest birthday. Mr. Spencer, as will be remembered, represented Chesterfield in the Legislature a good many years ago, and it is interesting to hear him talk of the changes that have taken place within the past twenty-five years in the "best county in the State."

The feminine contingent of the boosters came into Chesterfield Tuesday evening dusty but undismayed, after a very enjoyable trip. Among those in the crowd were Mrs. Britton, Mrs. Lonnie Campbell, Mrs. Henry Johnson, Mrs. Sandy Campbell and little Miss Lois Campbell, Miss Laura Davis and Miss Rena Campbell.

One of the most expensive dining tables in the world was viewed while at Macedonia, and the repast was served on this table. The legs are worth approximately \$1,000 and the table was easily worth their weight in gold if gold should be as valuable as diamonds.

A striking example of the munition of war which are being prepared in our fight on the boll weevil is shown on the farm of Mr. Campbell between Campbell's Mill and Patrick. Here, within the space of 100 yards are three 42-centimetre guns, to be used against the army of General Destruction that accompanies the advance of Mr. Boll Weevil. A fine crop of rice in the process of curing, flanked by a fine patch of ribbon cane, supported by the background of tobacco barns.

By the way, did any of the other boosters notice that the frost had not affected any part of the county except a small section on the highway between Cheraw and Patrick?

Mr. Spencer was only a few years the oldest booster, as Mr. T. P. Craig is mighty close to his age. Both of

these sterling old men walked straighter than the average boy and enjoyed the trip as much as little John Welsh.

What about the fellows who were so anxious about the dinner that they left McBee fifteen minutes ahead of time and arrived at Macedonia one hour late, having run so fast as to break one of the legs of their Ford before reaching Macedonia.

The boosters found cotton selling at 18 cents at Jefferson.

We refuse to give his name because we believe that he was not entirely responsible. Eating Macedonia "tater" pie is somewhat like drinking "cob-web" Bourbon. It cheers, though it does not inebriate, but it also may cause one to lose somewhat of discretion and in the fullness of his heart, say what he thinks. One of the speakers was thus effected and made the statement that though he hoped his god wife will outlive him, she might not, and if she did not, well, the young woman who made that "tater" pie might as well make up her mind to it. He wouldn't give her any rest till she married him. And we repeat, he was not to blame.

Dr. H. Smith, Eye Sight Specialist, will be in Chesterfield three days, Thursday, Friday and Saturday, October 26th, 27th and 28th. Have your eyes examined and fitted.

One Hundred Enthusiastic Boosters Encircle The County

Chesterfield County's big County Fair Booster trip swung round its ninety-mile circle Tuesday on schedule time.

It was a joyous and enthusiastic crowd of nearly 100 boosters that pulled out from the county seat a few minutes past 8 a.m. and dived into the dust of Chesterfield's highways. They breathed dust; they ate dust; they accumulated it in their eyes and ears; but their enthusiasm was not smothered nor suffocated. A more loyal aggregation of royal boosters never burned up the public highways than this bedusted group of Chesterfield County citizens.

Getting away a few minutes late, the stay at Cheraw was necessarily short, but from that on the trip was made on schedule time, or better.

Speeches were made at all of the stops save one, there being fairly good-sized crowds on hand to welcome the boosters.

The principal speakers were Secretary Hunley, Hon. W. P. Odom, Messrs. I. P. Mangum, B. J. Douglass, F. W. Rivers and D. H. Laney.

The speakers all stressed the fact that the Fair is a County Fair and not a court house town affair, that it was run by public-spirited men in the interest of Chesterfield county as a whole, seeking to favor no one section above another.

The fact was brought out again that this Fair Association is unique in that no dividends will ever be declared on the stock. Those who took stock in this association did so knowing that it was not to be a money-making investment. All profits go into the general treasury of the association for expenses, improvements and the awarding of prizes. There is hardly another county fair in the State giving as many and as large cash prizes as the Chesterfield County Fair.

Mr. Odom's quips and Mr. Mangum's jokes never failed to provoke laughter.

Mr. F. W. Rivers, "one of the best farmers in the county," had a special message for his hearers. It was a challenge to contest for that big \$25 prize for the best general display from any one farm. Mr. Rivers has taken this prize twice in succession and he told his hearers that he would continue to take it until some one beat him to it. He threw down the gauntlet and said, in effect, that the prize is there for you, now get it if you can. I won't begrudge you if

you beat me, but you will have to beat me to get it. I am going to be there. Are you?

At McBee, owing to a misunderstanding, the procession pulled out a few minutes too early. The school had turned out to meet the boosters, but they left as the children were coming out.

It was a dusty and hungry crowd that rolled into Macedonia a few minutes ahead of the schedule time for dinner.

It is right here that the writer feels like giving up in despair of doing the subject justice. All those people who have ever partaken of a picnic dinner at Macedonia know what we mean. It would take a gifted pen indeed to do justice to the handsome spread the good ladies placed before this hungry aggregation, one hundred strong.

Consider first the table on which the dinner was spread. It was estimated that the legs alone were worth about \$1,000, being made of 18½ cent cotton in bales. The food on top was estimated to be worth many times as much.

When this crowd was well-filled there remained enough untouched food to satisfy another such an aggregation.

Macedonia made a hit with the boosters, who hope they left as good an impression as they received.

On the remainder of the trip, at Jefferson, Pageland, Mt. Croghan and Ruby the travelers were well received and did their best to show their appreciation.

Billy Collins, the irrepressible Billy, met the boosters at Macedonia, where he played and ate, but his car refused to keep up with the procession the remainder of the way.

The Fair Association wishes to express its sincere appreciation to the car owners who furnished their cars for the trip. Among them are:

Messrs. G. R. Spencer, Jim Crawley, W. A. Douglass, C. C. Douglass, Henry Douglass, J. T. Hurst, L. M. Stanley, W. P. Odom, I. P. Mangum, P. M. Therrell, J. N. Davis, L. B. Davis, C. H. White, L. A. Campbell, A. L. Griggs, E. Armfield, J. C. Baker, H. F. King, M. S. Watson, A. W. Hursey, Henry Johnson and J. C. Rivers. Messrs. C. L. Melton and R. C. Atkinson accompanied the boosters from McBee to Jefferson.

The management will furnish season tickets to these car owners, in appreciation of their kindness.

MIDDENDORF

The entertainment given in the school auditorium last Friday evening was a grand success. A beautiful well-arranged program was rendered by the pupils. It consisted of music, readings and recitations, in which a large number of pupils participated and reflected credit on those who trained them. The next public exercises of this nature will be held Thursday afternoon, Oct. 26th, instead of Friday, as was previously announced. Mr. Hunley from Chesterfield, will speak. Everybody come.
